with any questions you  
may have.

Is your congregation ready to thrive? ELCA Vital Congregations, ELCA Evangelism, and ELCA Coaching in partnership with Kindling Faith invite congregations into the joyful journey of thriving in spirit, community, and action, both within the congregation and through neighborhood connection.

Congregational teams of up to five people are invited to join this special cohort program filled with inspiring stories, experienced and dynamic speakers, useful information, and practical support. Together, each congregation will be able to develop and enact a strategic plan filled with new ways to be church in the world, especially suited to share timeless faith in our current culture.

Six monthly 3-hour sessions are staffed with a coach specifically trained in congregational vitality and additional activities that can be used to turn zoom gatherings into a full day retreat or as interactive resources to inspire progress throughout the month. Registered congregations will have access to training recordings and digital downloads of all resources, along with supplemental Bible studies and book recommendations. Your coach will schedule check-ins to support your progress between sessions and offer specific contextual strategies that provide accountability and increase successful growth

There are three different pricing options available for congregational involvement. Go to the registration form to see them. The first session is September 21, so please register soon!
